## CLAIM AMENDMENTS

## Claims 1 through 11 (canceled)

- 12. (previously presented) A method of treating
  colorectal carcinoma in a patient in need of said treatment, which
  comprises the step of administering to said patient, a
  therapeutically effective amount of 4-[1-{2-(6-methyl-2pyridinyl)ethyl-4- piperidinyl}carbonyl]methane-sulfoanilide 2HCl
  sufficient to treat the colorectal carcinoma.
- 13. (currently amended) The method of treating
  colorectal carcinoma in a patient as defined in claim 12, wherein
  prior to treating the patient with a therapeutically effective
  amount of 4-[1-{2-(6-methyl-2-pyridinyl)ethyl-4piperidinyl}carbonyl]methane-sulfoanilide 2HCl, the following steps
  are carried out:
  - (a) obtaining from the patient a biopsy of colorectal tissue, lymph nodes or a sample of body fluid or stool, wherein the colorectal tissue, lymph nodes, body fluid, or stool are free of HERG channels in a patient free of colorectal cancer;
  - (b) detecting as a selective tumor marker [[the]] any presence of at least one HERG potassium channel in the biopsy of colorectal tissue, lymph nodes, or in the body fluid or stool; and

(c) relating [[the]] any presence of at least one HERG

potassium channel in the biopsy or sample [[to]] as indicating that

colorectal carcinoma is present in the patient.
